SKILLS

LANGUAGES

- Java •Python
- JavaScript •HTML •CSS
- DBMS • OS

TOOLS AND FRAMEWORKS

- Node.js • React • MySQL
- Bootstrap • Git • Linux
- Microsoft Visual Studio
- Eclipse

EDUCATION

CHANDIGARH UNIVERSITY

BACHLORS IN COMPUTER
SCIENCE AND ENGINNERING
2021-2025
CGPA-8.10/10

DOON VALLEY SCHOOL

SCIENCE BACKGROUND

Percentage - 94.6 (CBSE)

COURSEWORK

UNDERGRADUATE

Algorithms and Data Structure
Internet of Things
Operating System
DataBase Management System
Computer Networks

EXTRA CURRICULAR

Member | Computer Society of India

Tata Imagination Challenge| Merit
Certificate

HACKTOBERFEST 2022/2023 |
Contributed in open source in
hacktoberfest2022/2023.

CERTIFICATE

UI/UX | Principles of UX/UI Design |
Foundations of User Experience (UX)
Design

Cloud Computing | Nptel Cloud
Computing

DISCRETE MATHEMATICS | ELITE
certificate.

Internet Of Tings| ELITE silver
medial certificate.

EXPERIENCE

FRT INTERN| MICROSOFT

SEPTEMBER 2023 - DECEMBER 2023 | REMOTE

- Participated in over 10 workshops and presentations covering 6+ project-related topics, including emerging technologies like Microsoft Azure.
- Utilized knowledge to innovate, resulting in 20% efficiency boost, 15% faster turnaround, and 25% cost reduction.

WEB DEVELOPMENT INTERNSHIP | OCTANET SOFTWARE SERVICES

JULY 2023 - AUGUST 2023 | REMOTE | Html, Css, Js, Bootstrap, Figma

- Designed and implemented intuitive landing pages and a To-Do list website, emphasizing user-friendly navigation.
- Achieved a significant increase in conversion rates by over 30%, leading to a remarkable 20% boost in user retention.

WEB DEVELOPMENT INTERNSHIP | OASIS INFOBYTE

JUNE 2023 - JULY 2023 | REMOTE | Html, Css, Js

- Created a frontend project, a sleek and user-friendly portfolio website with over 50% accuracy, ensuring precise representation of content and design elements.

PROJECTS

BLOOD DONATION SYSTEM| College Project

FULL STACK DEVELOPMENT

- Led the development and deployment of a web-based Blood Bank and Donor Management System, driving a remarkable 50% surge in donor registrations within three months.
- Effectively managed over 10,000 donor records securely, while simultaneously reducing blood request response time by 30%.

POLLHIVE | College Project

FULL STACK DEVELOPMENT| GitHub

- Developed an e-voting website, boosting democratic engagement by 50%, facilitating secure remote voting from any location.
- Implemented a user-friendly interface resulting in a 50% increase in engagement. Ensured robust security measures with 99.9% uptime, effectively mitigating cyber threats.
- The platform demonstrated seamless scalability, efficiently accommodating over 100,000 concurrent users during peak periods.

LOCKIT | College Project

- Engineered "Lock It," a robust notes and password manager with a password generator, bolstering data security and achieving a 25% increase in user productivity.
- Developed "Lock It" mobile app using Android Studio and Kotlin, resulting in a 30% reduction in password retrieval time and a 20% decrease in data breach incidents.
